ARMA • GUARD

Protection that Works

ENHANCED PERFORMANCE

- Zero weight gain from liquids, dirt and other elements
- High Abrasion resistance
- Excellent low-temperature and impact strength
- Resilience to oils, greases, salt water, JP-8
- Remains flexible over a wide temperature range
- Robust weather and high-energy radiation resistance
- High elasticity across the entire hardness range
- Anti-slip feature
- Wide range of colors and Patterns
- High UV Resistance
- Cleans easily – non staining
- Material/color consistency
- Lower weight
- Hydrophobic material
- Low microbe transmission
- Not effected by humidity changes
- No seam separation
- Better ink adhesion

REDUCED COSTS

- Increased productivity
- Enabled JIT Processes
- Reduced labor
- Reduced CTS
- Controlled Cost
- No edge burn
- Minimized rejection
- Minimized rework
- Field repairable
- No shelf life
- Automated hermetic seaming
- No folding and soldering
- No VOC's
- Improved label processing
- Elimination of adhesive drum/pail removal
- Improved CPK
- Lower insurance cost
